Hyatt breaks ground at Danang

3/24/2008 12:17:00 PM

Hyatt Regency Danang Resort and Spa has broke ground on Vietnam's China Beach.

Scheduled to open in early 2010, after a US \$100 million investment, the resort's 226 guest rooms will be complemented by residential developments, including 150 condominium and 30 two-storey oceanfront villas for sale.

The resort is located 15 minutes by car from Danang International Airport, at the base of the Marble Mountains and near the UNESCO World Heritage Sites at Hoi An., My Son, and Hue.

"We're building on 650 meters of beachfront, and we're at the foot of the legendary Marble Mountains. In Vietnam, we can't think of a better combination of cultural appeal and tropical getaway," said Grahame Carder, vice president of marketing - Asia Pacific at Hyatt Hotels & Resorts.
